

## QUALITY AND SAFETY POLICY

As part of its corporate strategy PRESEZZI EXTRUSION S.p.A. defines a Company Policy for quality and health and safety in the workplace, as the main guideline for defining its objectives and involving all stakeholders in achieving the set goals

PRESEZZI EXTRUSION S.p.A. in carrying out its activities, it considers health and safety at work an indispensable duty.

The company's objectives are defined by focusing the commitment on the relationship with its customers and on the management of human resources and of its collaborators.

In the relationship with the customer, Presezzi Extrusion guarantees:

- ✓ high quality of its products
- ✓ continuous attention to the needs and requests of the customer
- ✓ flexibility
- ✓ commitment to operate in compliance with the applicable laws, regulations and directives not only for the satisfaction of the mandatory requirements, but also for continuous improvement
- ✓ timeliness and flexibility in after-sales assistance
- ✓ development of innovative, sustainable and valuable solutions for customer's operations

In managing human resources and collaborators, Presezzi Extrusion guarantees:

- ✓ mutual collaboration
- ✓ fairness and transparency
- ✓ availability and flexibility
- ✓ valorization of skills and attitudes
- ✓ human health and safety at work as indispensable duties, an ongoing commitment and a constant component of our mission

Therefore the main objectives that Presezzi Extrusion sets itself are

- ✓ satisfy the customer, in terms of product and service improvement
- ✓ focus the planning of activities on the needs and requirements of customers in full respect of the health and safety of the worker
- ✓ eliminate wherever possible, minimize, manage and communicate any potential risks relating to the products and activities carried out
- ✓ Ensure the sustainability of your business
- ✓ maintain high levels of attention, motivation, training on quality, health and safety issues in each employee, with particular attention to training, information and the active involvement of personnel
- ✓ to comply with the indications expressed by the laws in force, spreading a philosophy of quality and safeguarding health and safety inside and outside the company
- ✓ operate according to the principles of continuous improvement of management systems by promoting the participation and consultation of interested parties

- ✓ Optimize your internal organization
- ✓ guarantee the protection of the rights, health and safety of workers;
- ✓ contributing to the growth of people and ensuring stable employment

The growth and success of the Company, as well as on quality, are based above all on the mutual collaboration of all the people who work within it. All staff are therefore encouraged to apply the Company Policy set out here also in order to achieve a better work environment.

The Management is committed to reviewing the Quality Health and Safety System and the Company Quality Policy at least once a year in order to guarantee its effectiveness and validity over time and in order to pursue the continuous improvement in each of the above fields.

The Management is committed to spreading the Policy at all company levels, raising awareness and training of all personnel, disseminating the results achieved with respect to the set objectives.
